ABC Public School

AFFILIATED TO C.B.S.E., DELHI

Welcome to ABC Public School "The holistic education experience"!

ABC Public School is an innovative and creative day school in Gorakhpur was founded by the great humanitarian Mr. Ram Ashish Mishra in June 1996. We believe that education should be a joyful experience and our philosophy is that each child is unique and has his/her own unique strengths.

A lot of emphasis is given to personality development and each child is lovingly mentored to find his/her niche.

Our USP is our experienced and caring teaching team, We. have a Very high teacher/taught ratio as we believe individual attention is the key to a meaningful learning experience.

We groom our children to be global citizens with high regards for Indian culture and values. Where learning becomes a fun-filled journey of discovery.

PHILOSOPHY

We firmly believe that education is a joyful, lifelong process based on a solid academic foundation. Our holistic education programme prepares children for life. The child is the center of all our considerations. The school strives to teach children to respect and internalize their own culture and the diversity of the cultures that exist around them. **The need for a school like ABC Public School.**

It is clear that generally schools everywhere are too often large and impersonal, wedded to outdated ideologies and teaching methodologies. Children pass out each year from school with half baked bookish knowledge, stamped with fatigue and boredom, unable to explore their full potential due to a strait jacketed approach.

The founders of ABC Public School feel that there needs to be truthful and real contact between teachers and students. The classes need to be small and intimate. The focus in each class should be on ideas, debate and comprehension over blind dependence on lectures, notes and memory.

The children at ABC Public School have the opportunity to work with mentors they know and respect and who know and respect them. The natural beauty of the school campus and conducive learning environment inspires all of us to appreciate and adopt what is natural, simple and true. We more easily remember who we are and what is truly important. :

10. Parents who do not abide by the rules and regulations of the School as agreed at the time of admission will be requested to withdraw their wards.

"Childhood is the foundation stone upon which stands the whole life structure. The seed sown in childhood blossoms into the tree of life. The education which is imparted in childhood is more important than the education received in colleges and universities. In the process of human growth, proper guidance along with environmental learning is important."

-Swami Rama

"The highest education is that which doesn't merely give us information but makes our life in harmony with all existence."
